		1	2	3	4	5	Mean: 4.77	
							Std Dev: 0.53	
15817	Overall, I rate this INSTRUCTOR as a teacher:	Poor	Excellent	Total: 22 / 23				
		1	2	3	4	5	Mean: 4.59	
							Std Dev: 0.67	

Essay Instructor Responses for MATH114010 for 2022 Winter (2221)

Questions	
QID	Question
1117	Additional Comments:
Response #1	A great professor good at explaining and going over concepts. Thank you!
Response #2	great teacher, nice, caring, lenient
Response #3	As someone who struggles with math , I was nervous coming into this course , knowing that because it's in the winter it's more intensive and a lot more work. However, the professor made it very easy for not only myself, but for the class to understand math, and he answered any questions we had. This is the best I've done in a math course, and I would recommend this professor to anyone considering math 114.
Response #4	Mr. Pascal Kingsley, henceforth referred to as "PK" as requested by the instructor to be addressed, ensured students were understanding the material and had sincere compassion and care for his course material and our morale.
Response #5	One of my favorite teachers I have had at UD so far. Wants his students to do the best they can and is very understanding!
Response #6	n/a
Response #7	n/a
Response #8	Was difficult to understand during lectures and sometimes was confusing when explaining concepts.

Response #9	I was so scared to take math in college I have never been good at it and it caused me so much stress knowing it was a requirement for my college. But Professor Kataboh was truly fantastic! Honestly I don't even like math but he was an excellent instructor who answered all my questions and took the time to make sure our class understood the material. From the start of the semester to now I've become a lot more confident in my knowledge of the material and am so proud that I have worked so hard to achieve the grades I have and that wouldn't have been possible if not for the fact that Professor Kataboh truly cares about his students success and is regularly available to talk go over material with us so we can do our best.
Response #10	Having to retake MATH114 I was worried it would be a repeat of my first time taking it, but PK was a wonderful instructor and really helped me grasp and apply the concepts
Response #11	I really enjoyed working with him. He was very kind and understanding and he had a good understanding of the material. I do wish he had more knowledge of our calculators so he could help us with them rather than sending us youtube videos, because those did not help me very much. But yeah overall I would say he was very proficient and helped us understand the material. He was also so amazing at returning our work on time, for most exams it was the same day we got our grades back, which is incredible.
Response #12	Professor Kataboh does an amazing job at communicating with his students. He ensure that all students understand the material taught. He is very open to constructive criticism and he takes all thoughts, opinions and concerns about his teaching styles into consideration to better help the student.
Response #13	Very kind and passionate about his students doing well. Cared about struggling students and wanted to help them do their best
Response #14	N/A

Questions	
QID	Question
1116	Additional comments:
Response #1	understanding professor and great at what he does
Response #2	liked this course
Response #3	PK made this class extremely comprehensive and worked diligently to secure his students' successes in their math abilities. His explanations for arithmetic and statistics were short and sweet when first introducing a new topic to help set a foundation for understanding, and then meticulously built upon the foundation with in-depth detail so students can absolutely understand how to use the new information. PK is absolutely incredible as both person and instructor, and I was able to feel confident in my abilities in math again because of him. Thank you, PK!!!!!!
Response #4	n/a
Response #5	n/a
Response #6	I know I checked B or C but honestly my confidence levels were so low at first I was just hoping to pass but because of this professors teaching stye I'm confident I can do better then I thought I was initially capable of. I even enjoy doing the problems now because I understand the process I need to get the answer and when I get the right one I'm impressed with myself.
Response #7	I wish that there was more of an emphasis on statistics because I was told that this class would have more time dedicated to that. I definitely excel more in stat compared to algebra. Overall I liked the format of the class but I do wish that webassign could have been shorter and less repetitive because sometimes it was really time consuming.

Response #8	This winter session course was not traditional for this course. However, Professor Kataboh was able to simulate a great class room setting/environment during lectures and review.
