Response #1	PK, you're a great teacher :) Thanks for putting up with me this semester.
Response #2	No other comments.
Response #3	PK was very helpful always.
Response #4	We love PK. He is a great TA, shows he cares and helps you understand
Response #5	PK was a great TA. He was always available for help and understood that the course was difficult so he was very patient with us. The only suggestion I would make is returning the discussion worksheets and quizzes with solutions before exams and lecture quizzes so we could use them to study.
Response #6	PK was an astoundingly good TA. Glad I got him.
Response #7	PK was the absolute best TA I've had in the math department, he was fair, made thing understandable and cared about his students. He could probably name all his students and help each of them individually pass this class, even though he is a busy dude
Response #8	PK is the best.
Response #9	Awesome TA and one of the best. He explains the concepts very well and answers any questions I may have Thank you for helping me in the first weeks with catching up on Calculus 1-based concepts and working with me. I appreciated how you covered discussion quiz concepts before the quizzes, which help prepare and help the students.
Response #10	Thank you PK
Response #11	PK is very understanding of his students and has been helpful in discussion. He was a great TA to have.
Response #12	PK was always so kind, he always would ask us how we were doing before every class. He showed empathy towards us when we had a busy week or difficult concepts in this class. He also explained things very well and made sure everyone in the class understood, I only wish there was more class time so that he could teach us more! Often the class time felt too short for him to explain everything well, however, he did very well despite the limited time.
Response #13	BEST TA EVER!!! SIMPLE AS THAT

Response #14	Always came to class with a positive attitude, making jokes as he went along with the discussions and labs. Connected concepts together to make confusing topics in the lectures logical and easy to understand. Engaged with the class by having students do problems on the board for others to see. Couldn't ask for a better TA for this math class.
Response #15	PK is amazing. I really enjoyed his instruction and the way that he helped us grasp the material by presenting it in various methods different from lecture. I felt as though PK really cared about us as more than just students. 10/10 would recommend to a friend.
Response #16	PK was one of the greatest TA's I've had at UD. He was always extremely helpful in homeworks and studying. He truly cares about his students and wants the best for them and it shows. I couldn't have gotten to where I am in MATH242 without PK and his support throughout the semester. Best teacher ever!
Response #17	PK was amazing! During discussion and lab he always did his best to make sure we understood the content we were learning. I've honestly never had a more helpful TA! 10/10 in my opinion.
Response #18	Great TA, Enjoyed my semester with him
